Per our telephone conversation of April 11, 2011 we are submitting a Best and Final Offer response to clarify and confirm prior communications received from WSCA concerning this RFP. The WSCA clarification request will be reflected in black ink and the FedEx response in blue.

- I. Inadvertent inclusion of "Confidential and Proprietary" on several pages of the FedEx offer, pages 79 through 127. FedEx response: Authorization given to WSCA to waive the footer inadvertently included on part of the offer.

FedEx grants authorization to WSCA to waive the footer inadvertently included on part of our offer.

- II. Page 87 of FedEx offer #32 Report Requirements. Expand offer to clarify for state use of monthly reports and timeframes for how long reports are available to states in the FedEx system. Provide direct link information to the reports.

FedEx Reporting Online <http://www.fedex.com/us/account/reports/index.html> offers our customers the ability to run weekly and monthly reports 24 hours a day 7 days a week. Report data is available for 24 months. PURPOSE OF REQUEST FOR PROPOSAL (RFP)

The State of Utah, Division of Purchasing on behalf of the Western States Contracting Alliance (WSCA), is requesting Proposals from asset based Carriers for zone based door- to-door express small package air delivery, expedited ground parcel and pouch services. This RFP may result in a price agreement award to multiple Carriers for services to the contiguous 48 states, Alaska, Hawaii, Puerto Rico and international locations. Pricing for services for all WSCA states will be required. However, Proposals may be submitted from intrastate carriers for a specific state, covering all state points and places in intrastate ground and/or pouch service, when specifically designated within the appropriate cost tables. The purpose of this RFP is to establish Master Price Agreements on a competitive basis with qualified Carriers to provide these services whereby participating WSCA states can select services based on their established shipping needs.

ORDER OF PRECEDENCE:

Each contract issued under the Master Price Agreement will consist of the following documents:

1. A Participating Entity's Participating Addendum ("PA") including state specific Terms and Conditions included in this Solicitation;
2. WSCA Standard Terms and Conditions;
3. The Solicitation; and
4. Offeror's response to the Solicitation.

These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to the documents in the order listed above. Contractor terms and conditions that apply to the Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to the Master Agreement as an Exhibit or Attachment. No other terms and conditions shall apply, including terms and conditions listed in the Contractor's response to the Solicitation, or terms listed or referenced on the Contractor's website, in the Contractor quotation/sales order or in similar documents subsequently provided by the Contractor.

FedEx takes exception to this statement contained in the previous paragraph: *"No other terms and conditions shall apply, including terms and conditions listed in the Contractor's response to the Solicitation, or terms listed or referenced on the Contractor's website, in the Contractor quotation/sales order or in similar documents subsequently provided by the Contractor."* The FedEx Service Guide in effect at the time of shipment is a governing contractual document in both the WSCA Master Agreement and each state's participating addendum.

Important Note: Incorporation of the FedEx Service Guide

If awarded the business, FedEx would provide services subject to the completion of a definitive written agreement. Each shipment made under the agreement would be subject to the terms and conditions of the origin country's FedEx Service Guide in effect at the time of shipment, whose terms are incorporated by reference. FedEx reserves the right to modify the FedEx Service Guide at anytime. FedEx will endeavor to notify WSCA of any service changes contained in the FedEx Service Guide, and FedEx will work with WSCA to incorporate such changes into a contract amendment as mutually agreed upon by the parties.

A key objective of this RFP is to obtain reduced rates by combining the volume of shipments from governmental entities within multiple states with administrative savings that will result from the maintenance of a single, comprehensive Master Price Agreement for each selected Carrier.

BACKGROUND

WSCA is a cooperative group-contracting consortium for state government departments, institutions, institutions of higher education, agencies and political subdivisions (i.e. colleges, school districts, counties, cities, etc.) for the States of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Minnesota, Montana, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming. WSCA was formed in October 1993. The purpose of WSCA is to establish the means by which participating states may join together in cooperative multi-state contracting. The mission of WSCA is to implement multi-state contracts to achieve cost-effective and efficient acquisition of quality products and services and sharing among the WSCA participants. WSCA's website can be found at the URL <http://www.aboutwsca.org>.

**FedEx RFP Response for State Government of Utah – WSCA
Solicitation DR 11031**

WSCA uses a "Lead State" model in issuing cooperative solicitations. One WSCA state leads the procurement and establishes a Sourcing Team made up of members of other WSCA States. The Lead State issues the solicitation and awards the contracts based on that state's statutory requirements and processes. The Lead State owns and manages the contract(s). Once contracts have been executed by the Lead State, other WSCA states may then choose to participate with the awarded contracts. The resulting contracts may also be used by other NASPO states with the authorization from the WSCA directors.

WSCA currently has 138 contracts awarded for 28 different commodities and services. Multiple vendors are typically awarded within a solicited category. The awards are collectively utilized by nearly all 50 states. The 2009 annual spend on the 138 WSCA contracts was nearly \$6 billion. The WSCA member states also manage spend via non-WSCA contracts in the multi-billion dollar range as well.

WSCA contracts have considerable diversity in terms of the end users who utilize the contracts. Contract(s) resulting from a WSCA procurement may be used by State agencies and Institutions of Higher Education as well as the cities, counties, school districts and other political subdivisions within each respective State. The resulting Master Price Agreement(s) may also be used by other NASPO states with the authorization from the WSCA directors and subject to approval of the individual State Procurement Director and local statutory provisions.

WSCA is a subset of the National Association of State Procurement Officials (NASPO). NASPO is a non-profit association dedicated to strengthening the procurement community through education, research, and communication. It is made up of the directors of the central procurement offices in each of the 50 states, the District of Columbia and the territories of the United States. NASPO was formally established on January 29, 1947, in Chicago, Illinois. NASPO is an organization through which the member purchasing officials provide leadership in professional public procurement, improve the quality of procurement, exchange information and cooperate to attain greater efficiency, economy, and customer satisfaction. NASPO's website can be found at the URL <http://www.naspo.org>.

B. INSURANCE

Prior to executing a Participating Addendum contract, Carrier shall furnish each Participating State and Shipper Certificates of Insurance (COI) from insurance companies satisfactory to Participating State or Participating Entity evidencing that Carrier is covered by insurance of the kinds and minimum amounts as set forth below. Each policy shall contain a provision that no cancellation or material change in coverage shall be made without at least thirty (30) days prior written notice to Participating State or Participating Entity. Without limiting the generality of the foregoing, such insurance shall fully insure Carrier for carrier liability imposed by law and all liability assumed hereunder. Carrier shall require sub-contractors, if any, to obtain and maintain insurance of the types and amounts set forth below:

INSURANCE REQUIRED:

1. General Public Liability Insurance
Minimum Limits of Coverage:
Bodily Injury \$1,000,000 each occurrence
Property Damage 500,000
2. Auto Liability Insurance
Minimum Limits of Coverage:
Bodily Injury \$1,000,000
Property Damage 500,000
3. Cargo Insurance

FedEx reserves the right to negotiate specifications of coverage upon award of contract.

Motor Carrier Cargo Liability

For FedEx Express and FedEx Ground, our maximum liability shall be in accordance with the Declared Value and/or FedEx Money-Back Guarantee (as published in the FedEx Service Guide, Conditions of Carriage, or procedures of the country of origin at the time of shipment).

The declared value of any package represents our maximum liability in connection with a shipment of that package, including, but not limited to, any loss, damage, delay, misdelivery, non-delivery, misinformation, any failure to provide information, or misdelivery of information relating to the shipment. It is the shipper's responsibility to prove actual damages. Exposure to and risk of any loss in excess of the declared value is assumed by the shipper. You may transfer this risk to an insurance carrier of your choice through the purchase of an insurance policy. Contact an insurance agent or broker if you desire insurance coverage. FedEx does not provide insurance coverage of any kind.

For terms and conditions of declared value and the FedEx Money-Back Guarantee, please refer to the FedEx Service Guide, Conditions of Carriage, or procedures of the country of origin at the time of shipment.

In general, the liability of any and all carriers is determined by the airbill contract of carriage. Thus, the value stated on the originating carrier's airbill carries forward to all other carriers of the customer's goods. This is especially true when involved in international carriage.

FedEx does not agree to add WSCA as an additional insured or as a certificate holder or to increase insurance requirements for its coverage.

FedEx Express Verification of Insurance

The Risk Management Department of Federal Express Corporation provides the following verifications of insurance solely as a matter of courtesy for our customers and others.

These verifications extend no liability to our insurers and provide no insurance coverage to the holders of said documents.

The issuance of these verifications is only to comply with public request for evidence of insurance coverage.

WSCA may locate these verifications at fedex.com/us/about/insurance.

C. MANDATORY REQUIREMENTS

1. Provide firm rates for one year.

FedEx agrees to this requirement.

2. Fuel Surcharge. It is desired for Carrier not to assess a fuel surcharge under the Master Price Agreement. Preference will be given to Offerors not assessing a fuel surcharge. Offeror shall indicate if it will assess a fuel surcharge. If Carrier applies a fuel surcharge, an express (air) and ground cap of (not to exceed) 7% for the full term of the Master Price Agreement will be imposed. Authorized Users must be able to confirm the accuracy of invoices by accessing the Carrier's website for fuel surcharge information. The Carrier's website shall also provide historical fuel surcharge information. The fuel surcharge assessed under this Master Price Agreement shall not exceed the Carrier's published surcharge rate or 7% whichever is lower.

Please refer to the FedEx pricing proposal for our response.

FedEx Express: Fuel Surcharge Ranges

During 2010, FedEx Express purchased jet fuel from various suppliers under contracts that vary in length and which provide for specific amounts of fuel to be delivered. The fuel represented by these contracts is purchased at market prices. Because of our indexed fuel surcharge, we do not have any jet fuel hedging contracts.

Approximately 10 percent of FedEx Express's requirement for vehicle fuel is purchased in bulk. The remainder of FedEx Express's requirement is satisfied by retail purchases with various discounts.

The FedEx Express fuel surcharges are indexed to the spot price for jet fuel. Using this index, the U.S. domestic and outbound fuel surcharge and the international fuel surcharges ranged as follows, for the years ended May 31:

FedEx Express Fuel Surcharges (FY 2008–2010)			
	Years Ended May 31:

FedEx Ground: Fuel Surcharge Ranges

The FedEx Ground fuel surcharge is based on a rounded average of the national U.S. on-highway average prices for a gallon of diesel fuel, as published by the Department of Energy. Our fuel surcharge ranged as follows for the years ended May 31:

FedEx Ground Fuel Surcharges (FY 2008–2010)

4. Carrier Service Guide in effect at time of Master Price Agreement award will be in effect for the first year of the Master Price Agreement with no changes in rates or charges during that time without the prior written approval of the WSCA Contract Administrator. The pricing in this Master Price Agreement is not tied to the Carrier's published list pricing in the Service Guide.

FedEx agrees to this requirement.

5. No pick-up charges or weekly service charges shall be assessed for air or ground shipments tendered to the Carrier due to aggregate WSCA volume anticipated. There shall be no required minimum number of packages per trip, per day, per week or per month. No pickup charge may be assessed in addition to the contracted rate for the shipment.

Please refer to the pricing proposal for our response.

6. Carrier must pick-up packages directly from all requesting agencies and political subdivisions upon request. Offeror shall state in its response that all Master Price Agreement pricing will be extended to all participating state agencies and political subdivisions. Carrier must bill each Authorized User for shipments the Authorized User tenders to the Carrier.

FedEx Express and FedEx Ground will pick up from requesting agencies upon request during our normal operational times and in the manner set out in the FedEx Service Guide.

7. Carrier must provide clearly marked money back guaranteed zone based price sheets (schedules of rates and charges) for each service showing rates and charges by weight and zone for all contiguous 48 state domestic shipping. Separate rates in pages may be provided and clearly marked for Hawaii and Alaska and Puerto Rico services. Carriers offering pricing for intrastate ground services only must provide separate clearly marked zone based pricing for the designated state. Rates will be in dollars and cents per pound.

FedEx agrees to this requirement.

8. Money Back Guarantee. The Carrier shall provide a 100% Money Back Guarantee. Upon request of the Authorized User, the Carrier shall fully refund or credit the Authorized User account for the packages that are not delivered or picked up in accordance with the guaranteed delivery service. Packages that are delivered over 60 seconds after the guaranteed delivery time are considered late. The Authorized User shall request the refund or credit within 30 days of the scheduled delivery time. Carriers are encouraged to offer automatic refunds. If the late package meets one or more of the Carrier's exception criteria, as stated in the Service Guide, the Carrier is not obligated to issue a refund to the Authorized User.

FedEx takes exception to refund or credit within 30 days. Please refer to the FedEx Service Guide in effect at the time of shipment for specific terms and conditions.

FedEx Motor Carrier Cargo Liability

For FedEx Express and FedEx Ground, our maximum liability shall be in accordance with the Declared Value and/or FedEx Money-Back Guarantee (as published in the FedEx Service Guide, Conditions of Carriage, or procedures of the country of origin at the time of shipment).

For terms and conditions of declared value and the FedEx Money-Back Guarantee, please refer to the FedEx Service Guide, Conditions of Carriage, or procedures of the country of origin at the time of shipment.

In general, the liability of any and all carriers is determined by the airbill contract of carriage. Thus, the value stated on the originating carrier's airbill carries forward to all other carriers of the customer's goods. This is especially true when involved in international carriage.

FedEx Express Money-Back Guarantee Policy, shipments within the U.S.

We offer a money-back guarantee for our services. This guarantee can be suspended, modified or revoked at our sole discretion without prior notice to you.

At our option, we will, upon request, either refund or credit your transportation charges in the event of a service failure (which means delivery of your package 60 seconds or more after the published delivery commitment time for the selected service and destination, except as otherwise described in terms and conditions of the FedEx Service Guide). This money-back guarantee is your exclusive remedy in the event of a service failure for the recovery of all or any portion of the FedEx charges for a shipment. If the money-back guarantee is suspended, there is no remedy or recovery of charges for a service failure. There are no delivery commitments for shipments on which the money-back guarantee is suspended.

The following limitations apply:

- Credits for transportation charges will be applied to the payer's account only, and refunds will be made payable to the payer only.
- Only one refund or credit is permitted per package. In the case of multiple-piece shipments, the money-back guarantee applies to each package in the shipment. If a service failure occurs for any package within the shipment, a refund or credit will be given only for the portion of the transportation charges applicable to that package.
- The money-back guarantee for package services destined for areas outside our primary service areas applies only to the portion of the transportation provided directly by us. The money-back guarantee for FedEx Express Freight services destined for areas outside our primary service areas applies to the portion of the transportation provided directly by us and may also apply to the portion of the transportation provided by the cartage agent.
- Shipments scheduled for delivery on a holiday will be delivered the next business day. Observance of local holidays (e.g., Mardi Gras, St. Patrick's Day) may cause delivery delays. In both circumstances, the delivery commitment for application of the money-back guarantee policy will be extended for a period equal to the length of the holiday.

FedEx will not be obligated to refund or credit your transportation charges if:

- We provide you with proof of timely delivery, consisting of the date and time of delivery and, if applicable, the name of the person who signed for the shipment, or service-exception information reflecting that the failure to deliver timely resulted from circumstances described under the Liabilities Not Assumed section of the FedEx Service Guide.

**FedEx RFP Response for State Government of Utah – WSCA
Solicitation DR 11031**

- The service failure resulted, in whole or in part, from any of the circumstances described under the Liabilities Not Assumed section of the FedEx Service Guide.
- The payer's FedEx account number was not in good credit standing, or payment instructions were invalid, and delivery was delayed until payment arrangements were secured.
- The shipment was scheduled for delivery on the Wednesday immediately prior to Thanksgiving or during the seven calendar days before Christmas Day via any FedEx Express U.S. or FedEx Express Freight U.S. service, and was delivered within 90 minutes of the published delivery commitment time for the selected service and destination.
- The shipment was undeliverable or returned.
- The shipment contained dangerous goods or dry ice.
- The shipment was delayed due to an incorrect address or ZIP code or the unavailability or refusal of an appropriate or eligible person to accept delivery or sign for the package, including signatures obtained via FedEx Delivery Signature Options.
- The shipment was delayed due to security or other regulatory delays.

Please refer to the FedEx Service Guide for complete details.

If the money-back guarantee is suspended, there is no remedy or recovery of charges for a service failure. There are no delivery commitments for shipments on which the money-back guarantee is suspended.

The following limitations apply:

- Credits for transportation charges will be applied to the payer's account only, and refunds will be made payable to the payer only.
- Only one refund or credit is permitted per package. In the case of multiple-piece shipments, this money-back guarantee applies to each package in the shipment. If a service failure occurs for any package within the shipment, a refund or credit will be given only for the portion of the transportation charges applicable to that package. For FedEx International Priority DirectDistribution and FedEx International Priority DirectDistribution Freight, the money-back guarantee for shipment delays is prorated based on the number and weight of packages within the shipment where delivery is not completed by the service commitment.
- A credit or refund under our money-back guarantee policy will be applied only against charges for the shipment giving rise to the credit.

- An exact delivery commitment time can be obtained only by telephoning International Customer Service and supplying us with all of the following:
 - Commodity being shipped
 - Date of the shipment
 - Exact destination
 - Weight of the shipment
 - Value of the shipment
- Any transit time published in the FedEx Service Guide or elsewhere, or quoted by Customer Service without the above five required facts, is only an estimate and is not a stated delivery commitment time. You agree that our records regarding quoted delivery times will constitute conclusive proof of any such quotes.
- This money-back guarantee does not apply to requests for invoice adjustment based on overcharges or shipments to P.O. box addresses acceptable for delivery.
- The money-back guarantee for shipments destined for our extended service areas applies only to the portion of the transportation provided directly by us.
- This money-back guarantee applies only to transportation charges paid by U.S.-based payers and does not apply to duties, taxes or other charges, including ancillary clearance service fees.
- Holidays in international locations will affect our transit times. Contact International Customer Service for information on delivery commitments that may be affected due to the observance of these holidays. Deliveries normally scheduled to be made on the day of holiday observance will be rescheduled for delivery on the next business day. The delivery commitment for application of the money-back guarantee policy will be extended for a period equal to the length of the holiday.
- If the sender or recipient specifies a customs broker other than FedEx or the broker selected by FedEx (where this service is available), notification may be given to the broker by 12 p.m. on the first business day the shipment is available for customs clearance in the destination country, and such notification constitutes timely delivery.
- For FedEx International Next Flight service, the quoted delivery time may be changed for many reasons, including, but not limited to, the following: flight delays or cancellations due to air traffic control, weather or mechanical problems. If the delivery commitment is changed, the money-back guarantee will only be applicable to the latest quoted delivery time.

FedEx will not be obligated to refund or credit your transportation charges if:

- We provide you with proof of timely delivery, consisting of the date and time of delivery and, if applicable, the name of the person who signed for the shipment, or service-exception information reflecting that the failure to deliver timely resulted from circumstances described under the Liabilities Not Assumed section of the FedEx Service Guide.
- The service failure resulted, in whole or in part, from any of the circumstances described under the Liabilities Not Assumed section of the FedEx Service Guide.
- The payer's FedEx account number was not in good credit standing, or payment instructions were invalid, and delivery was delayed until payment arrangements were secured.
- The shipment was scheduled for delivery on the Wednesday immediately prior to Thanksgiving or during the seven calendar days before Christmas Day via any FedEx Express international or FedEx Express Freight international service, and was delivered within 90 minutes of the published delivery commitment time for the selected service and destination.
- The shipment was undeliverable or returned.

- The shipment contained dangerous goods or dry ice.
- The shipment was delayed due to an incorrect address or to the unavailability or refusal of an appropriate or eligible person to accept delivery or sign for the package.

- The delay in delivery was caused by adherence to FedEx policies regarding the payment of duties and taxes prior to customs clearance or at delivery.
- Incorrect FedEx tracking numbers were applied to the subject package or shipment by customers using FedEx electronic shipping devices.
- Complete recipient information was not provided at the time of tender to FedEx. Complete recipient information must be provided on either the air waybill or through any FedEx electronic shipping device.

Important Note: Incorporation of the FedEx Service Guide

If awarded the business, FedEx would provide services subject to the completion of a definitive written agreement. Each shipment made under the agreement would be subject to the terms and conditions of the origin country's FedEx Service Guide in effect at the time of shipment, whose terms are incorporated by reference. FedEx will endeavor to notify WSCA of any service changes contained in the Service Guide, and FedEx will work with WSCA to incorporate such changes into a contract amendment as mutually agreed upon by the parties.

10. Offeror must demonstrate an established, successful track record of past performance in duties and responsibilities related to domestic and international transportation services specified herein. FedEx Annual Report and Financial Statements

In addition to the hard copy of the FedEx Annual Report provided along with this response, we invite WSCA to visit the Investor Relations section of our website, located at fedex.com/us/investorrelations, to stay abreast of information regarding FedEx. Our site includes certain financial and operating data, including our quarterly Stat Book, FedEx Annual Report, 10k and will provide notice of events of interest to investors. We periodically update it to include responses to frequently asked questions regarding our business as well.

On-Time Delivery Performance

FedEx does not provide performance information on a company-wide basis, however, upon request, we can provide performance information as it pertains to the individual participating states.

10. Carrier shall have the capabilities of providing the services required under this Price Agreement. For Carriers providing interstate services under the resulting price agreement, Carrier shall serve every zip code in the United States. For Carriers providing intrastate services, Carrier shall serve every zip within the boundaries of the Participating State requesting intra-state services as identified in this RFP, see Attachment B.

FedEx Express and FedEx Ground operate strategically located fleets of aircraft and ground vehicles that allow us to cover 100 percent of U.S. zip codes. Please refer to **FedEx Attachment C** for an overview of FedEx Express and FedEx Ground services.

11. Carrier shall have trained personnel that can research and maintain a quality assurance program through tracking and monitoring deliveries. Carrier should describe its ongoing quality control program.

FedEx provides WSCA a dedicated government sales team along with general customer service resources to support WSCA's tracking and shipment monitoring needs, as well as extensive reporting options and quality programs.

FedEx Quality Driven Management and Six Sigma – On-Going Quality Control Programs

The FedEx approach to quality includes Six Sigma and other quality best practices.

Consistent Quality Across FedEx

Quality Driven Management (QDM) is the FedEx approach to Quality worldwide. It was built by FedEx and optimized for FedEx to make our legendary quality even better. We implemented QDM to ensure that our customers consistently experience the quality they expect from FedEx regardless of which services they choose.

At FedEx, quality is closely aligned with senior leadership companywide. It's not driven by an internal Quality organization. An executive committee rigorously reviews how well FedEx and its competitors are meeting customer expectations. Key quality issues are systematically identified, prioritized and addressed by the committee.

On a daily basis, FedEx measures overall quality through the Service Quality Index (SQI). SQI is a FedEx tool that monitors specific performance elements throughout the company. It's based on competitive analyses and quantitative market research that identify customer requirements critical to quality. The information is embedded in our management, information and operations systems and is used to rigorously analyze trends and identify areas where we can improve our service. Quality assurance teams ensure that corrective action is taken to improve performance by focusing on root causes.

Across FedEx, leadership is measured against SQI metrics and incented to meet the goals that have been set. The metrics and performance goals are reviewed and approved annually and reinforced throughout the organization.

QDM is a Both a Philosophy and a Methodology

- As a philosophy, QDM is the way we think about Quality first when making a decision. It's a set of principles that encourages us to use disciplined reasoning and objective data. It's how we connect every action and every decision back to the customers, who are the heart of FedEx.
- As a methodology, QDM provides a defined set of methods, techniques and tools that are used to drive quantifiable improvements in our business. QDM is not limited to one methodology, but draws on the best of industry practices, such as Six Sigma, LEAN and Total Quality Management. Our goal is continuous improvement and a zero defect rate, even where our defect rate is very low. It reflects our commitment to customers to deliver the industry-leading reliability they expect from FedEx.

QDM Encompasses Six Sigma Best Practices

- QDM encompasses more than one quality methodology, including ISO Standards, Six Sigma and LEAN. The QDM process improvement model is called ABLE — Assess, Build, Launch and Evaluate. Individuals are able to do the work; they are enabled by tools and techniques to solve problems within their work area.
- ABLE aligns very closely with the Six Sigma DMAIC model; Assess is Define; Build covers both Measure and Analyze; Launch is similar to Improve; and Evaluate equates to Control. While Six Sigma focuses primarily on controlling variation by reducing defects, QDM focuses on variation reduction and defect elimination, as well as waste reduction. The following table highlights differences and similarities between QDM, Six Sigma and LEAN.
- “QDM is based on the belief embedded in FedEx culture that quality is everyone's job,” says Frederick W. Smith, FedEx chairman and CEO. In Six Sigma, Quality is owned by a group of highly trained Quality professionals.
- QDM has been introduced to all 290,000 team members worldwide. Every FedEx team member has a deep desire and responsibility to deliver the Purple Promise: “I will make every FedEx experience outstanding.” To help the workforce deliver on the Purple Promise and implement quality in their jobs, QDM deliberately uses simple, intuitive quality language to make sure quality principles are understood by the entire FedEx workforce.
- Customer-facing team members are required to take additional QDM fundamentals skills training, while line and staff managers complete three online training courses. Additional content is included in the FedEx Manager's Guide. Quality professionals and resident leaders and coaches are provided more in-depth, face-to-face training on the principles, improvement methodology tools (e.g., quality basics, statistical tools and LEAN tools), software and project management.

FedEx agrees to this requirement.

Dangerous Goods, FedEx Express

Many of the items we use every day contain volatile, flammable or otherwise potentially hazardous materials, and they present a special shipping challenge. FedEx Express helps you respond to that challenge with services designed to transport your sensitive materials simply and safely.

The less time dangerous goods spend in transit, the better. With FedEx Express delivering your accessible and inaccessible dangerous goods to all U.S. and many international destinations, your shipments get there fast — even overnight.

- We are knowledgeable about the regulations governing dangerous goods shipments and often work closely with the agencies that regulate dangerous goods.
- Our toll-free hotline is staffed by knowledgeable specialists. For both U.S. and international shipments, call 1.800.463.3339 (say “dangerous goods”) to reach the FedEx Dangerous Goods/Hazardous Materials Hotline.

Requirements

Dangerous goods must be tendered to FedEx Express according to current International Air Transport Association (IATA) regulations for air transport and the FedEx Express Terms and Conditions. This is required regardless of how your shipment is routed and whether the goods are physically moved by air, ground or any combination of the two. The only exceptions allowed are:

- Magnetized material
- Toxics in exemption packaging
- ORM-D
- Small quantities under section 49 of the Code of Federal Regulations (CFR), part 173.4
- Some DOT exemptions approved for air transportation

These exceptions may be offered for transit within the U.S. and to Puerto Rico in accordance with Title 49 of the CFR, which applies to air transportation.

You must identify, classify, package, mark, label and complete documentation for dangerous goods according to all national and international governmental regulations. Failure to do so could create dangerous conditions and result in you being subject to governmental fines and penalties under applicable laws.

The federal government requires that every shipper have job-specific dangerous goods training before tendering a dangerous goods shipment to FedEx or any air carrier.

You can register at fedex.com for government-mandated training. We offer a full three-day course, a one-day refresher course for experienced shippers and special training on shipping radioactive materials. We also offer private seminars at your location.

Documentation

When you process your shipment, you must indicate on your documentation that it contains dangerous goods. If you complete paper airbills and are shipping dangerous goods within the U.S., use the FedEx® US Airbill. If you're shipping dangerous goods outside the U.S., use the FedEx® Expanded Service International Air Waybill. For both the airbill and air waybill, please complete the Special Handling section, which pertains to dangerous goods.

For your convenience, FedEx® Ship Manager at fedex.com can accept different designations of dangerous goods for individual packages within a U.S. multiple-package shipment. You must package, mark and label each package appropriately and provide dangerous goods documentation for the entire shipment.

FedEx requires that each dangerous goods shipment be accompanied by two copies of the Shipper's Declaration for Dangerous Goods in a typed or computer-generated format. For your convenience, FedEx provides interactive Shipper's Declaration for Dangerous Goods form templates online, fedex.com/us/services/options/dangerousgoods.

Labels for Dry Ice Shipments

For faster, more-accurate shipment preparation of dry ice, UN 1845, use our special FedEx dry-ice package labels. Simply complete the required fields and apply the labels to your packages rather than marking and labeling the packages by hand.

Labels for Hazard Class ORM-D Shipments

FedEx Express offers a FedEx Express ORM-D-AIR label for your shipments of hazard class ORM-D offered under Title 49 of the CFR, as prepared for air transportation and tendered within the U.S. and U.S. territories. This label conveniently consolidates the required dangerous goods markings. Simply complete the required fields — which are not preprinted — and apply the label to your package.

Special handling fees apply. Please refer to the *FedEx Service Guide* in effect at the time of shipment for complete details.

Hazardous Materials, FedEx Ground

Packages containing hazardous materials, including materials classified as "Other Regulated Materials - Domestic" (ORM-D), cannot be shipped via FedEx international services or to Hawaii or Alaska (consumer-commodity ORM-D can be shipped to Canada if properly labeled). Hazardous material shippers must be properly qualified through a FedEx sales representative before tendering hazardous material packages via FedEx Ground.

All packages containing hazardous materials must be properly classified, described, packaged, marked, labeled and in proper condition for transportation according to applicable regulations and FedEx Ground requirements. FedEx Ground accepts only certain hazardous materials as listed in the current copy of the FedEx Ground Shipping Hazardous Materials Guide, which is incorporated herein by reference.

FedEx Ground does not accept for transportation hazardous waste, hazardous substances, inhalation hazards, and biohazards such as blood, urine, fluids and other noninfectious diagnostic specimens.

Hazardous materials, except ORM-D materials, cannot be banded, strapped or taped to form a bundle. Packaging restrictions and service restrictions apply. Unless other U.S. Department of Transportation (DOT) restrictions apply, FedEx Ground does not accept hazardous materials over 70 lbs. (32 kg). FedEx Ground does not accept pails or drums over 8 gallons (32 liters). All pails or drums must be in performance-oriented packaging (POP). FedEx Ground will accept authorized pails or drums as single packaging. Hazardous materials may not be shipped in any FedEx packaging.

Hazardous material shipments, including shipments containing ORM-D materials, are not accepted at FedEx Express Drop Box locations, FedEx Office Print & Ship Center locations, FedEx World Service Center locations, FedEx Express station or ramp locations, FedEx Authorized ShipCenter locations, and unstaffed FedEx locations.

Packages containing hazardous materials are not eligible for FedEx Ground return options, except for packages shipped by preapproved shippers using the FedEx Ground Package Returns Program.

All damaged or leaking hazardous material packages may be properly repackaged, prepared in accordance with applicable DOT regulations and returned to the shipper. The undamaged portion of a damaged hazardous materials shipment will be returned to the shipper for recycling, reprocessing or disposal. If the shipper refuses to accept the returned shipment, or if the shipment cannot be returned to the shipper, as determined at our sole discretion, the shipper is responsible for and will reimburse FedEx Ground for all costs and fees of any type connected with the legal disposal of the shipment and all costs and fees of any type connected with cleanup of any spill or leakage.

No service guarantees (e.g., no FedEx Money-Back Guarantee) will apply to packages not properly prepared in accordance with DOT regulations and FedEx Ground requirements.

Hazardous material packages found in the FedEx Ground system not properly prepared in accordance with DOT regulations and FedEx Ground requirements will be held for customer pickup. If the shipper refuses to pick up or make other arrangements for delivery acceptable to FedEx Ground, the shipper will reimburse FedEx Ground for all costs and fees of any type connected with the legal disposal of the shipment. The shipper agrees to indemnify FedEx Ground for any and all costs, fees and expenses FedEx Ground incurs as a result of the shipper's failure to comply with FedEx Hazardous Materials shipping requirements.

In the event the shipper loads any FedEx Ground vehicle, the shipper agrees to segregate hazardous materials in accordance with regulations.

The shipper may be held accountable for all costs associated with any damaged or leaking hazardous material package that is not properly prepared in accordance with all DOT regulations and FedEx Ground requirements. Cost may include response, cleanup and disposal.

Materials classified as ORM-D are the only hazardous materials that can be shipped via FedEx Home Delivery.

Packages containing hazardous materials are not eligible for signature release, driver release or indirect delivery.

Charge for Handling Hazardous Materials. In addition to the other rates and charges named in this tariff, a charge will be assessed on each package of hazardous materials.

22. Shipment of Materials. Carrier must be able to provide services for shipments of evidentiary materials in compliance with any participating state laws, policies or procedures. A copy of these Participating State or Participating Entity policies and procedures is available upon request.

FedEx takes exception to this requirement and compliance will be addressed through each states participating addendum.

23. Deliver as Addressed. When requested by Authorized User, Carrier shall return undeliverable package to sender, rather than performing an address correction and forwarding the package to an address. Carrier shall work with the Authorized User to adequately identify these items as "deliver as addressed" or in some mutually agreed language rather than forwarding them on to a correct address. Authorized User shall notify Carrier of such packages. Carrier shall not charge an additional fee for returned items that are appropriately identified as "deliver as addressed."

FedEx takes exception to this requirement, however, FedEx agrees to work with WSCA participants when requested to identify and return undeliverable packages to sender.

The following policy overview from the FedEx Service Guide provides information about Undeliverable Shipments.

Undeliverable Shipments

An undeliverable shipment is one that cannot be delivered for reasons that include, but are not limited to, any of the following:

- The recipient refuses to pay for a bill-recipient shipment.
 - The recipient of a Hold at FedEx Location shipment cannot be located.
 - The recipient refuses to accept the shipment.
 - The recipient's delivery address cannot be located.
 - The shipment was addressed to an area not served by FedEx.
 - The shipment's contents or packaging are damaged to the point that rewrapping is not possible.
 - The shipment would likely cause damage or delay to other shipments or property or injury to personnel.
 - The shipment contains prohibited items.
 - The recipient's place of business is closed.
 - No appropriate person was available to accept the shipment at a delivery location on the initial delivery attempt or reattempts.
 - The shipment was improperly packaged.
1. When practicable, we will contact the sender for instructions on returning or otherwise disposing of the shipment. If the sender requests return, it will travel by FedEx 2Day, FedEx Express Saver or FedEx Priority Overnight (shipping will be charged to the sender).
 2. If a package shipment is undeliverable for any reason, we will attempt to notify the shipper to arrange for the shipment's return. The charges associated with the original shipment remain due and payable within 15 days from the invoice date. If a package is marked "Bill Recipient" and is refused or returned to the sender, the billing is automatically changed to "Bill Sender."
 3. Package shipments will be returned via FedEx Express Saver service at the shipper's expense unless contrary instructions are received from the shipper after five business days from the initial delivery attempt. However, nonfreight package shipments will be returned via FedEx Priority Overnight service at no additional charge if the shipment is undeliverable because of a service failure or damage to the shipment caused by FedEx. If the shipment is undeliverable for any other reason, all return charges and fees will be assessed to the original shipper, along with the original transportation charges and fees.

FedEx RFP Response for State Government of Utah – WSCA
Solicitation DR 11031

4. If a FedEx Express Freight shipment is marked "Bill Recipient" and is refused or returned to the sender, the billing is automatically changed to "Bill Sender."

All FedEx Express Freight shipments will be returned via FedEx 3Day Freight. The freight shipment will be returned at no additional charge if the freight shipment is undeliverable because of a service failure. If the shipper requests return via another service, our regular rates will apply. If the freight shipment is undeliverable because of a non-service-failure reason, all return charges and fees will be assessed to the original shipper, along with the original transportation charges and fees.

Our money-back guarantee policy does not apply to undeliverable or returned shipments.

5. Dangerous goods shipments will only be returned via FedEx Dangerous Goods Service or other appropriate means. A dangerous goods special handling fee applies. The shipper must supply a completed return airbill and all other required documentation.
6. If a shipment cannot be delivered or returned or if the shipper or recipient cannot be contacted, the shipment may be transferred or disposed of by FedEx at its sole discretion, with or without notice, and the shipper, if known, agrees to pay any costs incurred in the disposal.

24. Carrier shall:

- a. Meet or conference call at least quarterly with the WSCA Contract Administrator to review performance, usage under the Master Price Agreement, and discuss opportunities for improvements.

FedEx agrees with this requirement.

- b. Provide all documentation necessary for any performance audit(s), as requested by any participating state.

FedEx can negotiate with each participating state to determine mutually agreeable reporting specifications.

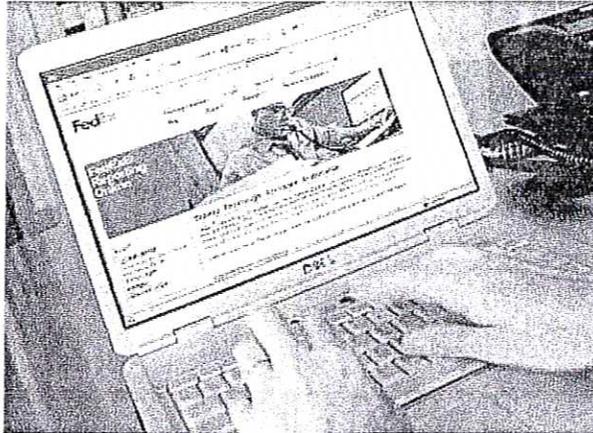

- c. Notify the WSCA Contract Administrator in writing of any unresolved disputes or problems that have been outstanding for more than thirty (30) days.

FedEx agrees with this requirement, if we are aware of outstanding disputes or problems that have been outstanding for more than thirty (30) days.

- d. Provide an overview of reporting capabilities that includes report formats, standard reports available, and ad-hoc report capabilities, and any sample reports.

FedEx Solutions Design and Implementation Team

Customers require much more than transportation services from FedEx and are looking for a supply chain provider who will offer solutions that help them accomplish their corporate goals and objectives. The FedEx Solutions Design and Implementation (SDI) Team works with customers by applying a knowledge-based approach in order to understand their business and supply chain goals and objectives and then proactively develop and execute comprehensive global solutions that help customers improve their businesses and deliver quantified business value.

SDI Design Activities

An important component of SDI's work is the design phase of our engagements. SDI's key role for design is to understand a customer's business and supply chain goals and objectives and then to design and develop solutions that FedEx can provide by applying the assets of the entire FedEx portfolio.

Activities associated with design projects are:

- **Business/Supply Chain Strategy Discussion** – Understand WSCA business and supply chain goals, objectives and priorities.
- **Solution Design Process** – Define the current state, desired future state and existing gaps of each improvement opportunity and then develop specific supply-chain and business solutions utilizing the appropriate FedEx assets.
- **Supply Chain Analysis** – Analyze components of the supply chain and determine the impacts based on customer goals and objectives, using best-in-class analytical techniques and applications:
 - Mode optimization
 - Service optimization
 - Optimal DC sourcing
 - Multiweight analysis
 - Direct-load analysis
 - Facility location study
 - Dock-drop distribution
 - Zone skip analysis

- **Value Identification and Value Quantification** – Utilize ROA-based quantification modes to determine potential and achieved impacts of each solution to a customer's income statement and balance sheet.

SDI Implementation Activities

We want to ensure that your transition to FedEx is smooth and seamless. Upon award of the business, FedEx Worldwide Account Manager, Elaine Heath, will engage the SDI Team to work closely with your executives and tailor an implementation plan that is specific for WSCA. This plan will include the project scope, timelines, expected deliverables, team members from both WSCA and FedEx and measurement tools to ensure success.

Working with WSCA, we will define the appropriate operating plans, supply chain visibility needs and customer service requirements necessary to support both WSCA and your customers. We will also identify the internal support team (e.g., FedEx automation experts, engineering personnel, business development advisors and operations management) to provide ongoing support.

SDI provides a strong cross-organizational team of dedicated professionals to ensure a well-executed implementation. Best results occur when customer assigns functional resources that match FedEx.

WSCA Can Obtain Complete Shipment Visibility with FedEx InSight

Keep track of your shipments any time of the day or night with FedEx InSight, our free shipment-status tracking and management application on fedex.com/us/insight. FedEx InSight lets you monitor the status of your shipments and automatically notifies you and designated others of critical events that affect your shipments. This tool makes tracking easier because tracking numbers are not required and you can view more details about the shipments.

FedEx InSight gives you:

Shipment Information

Displays information for your FedEx Express, FedEx Ground, FedEx Home Delivery, FedEx SmartPost, FedEx Trade Networks, FedEx Freight, and FedEx National U.S. and international shipments, including inbound, outbound and third-party-payer shipments. You can use account number(s), customer data (company name, address), or both, to identify your shipments — no tracking numbers required. InSight allows an unlimited number of account numbers or company names and addresses.

You can view this information online, receive it via mail or download it. Information is available four days after delivery or, if delivery doesn't occur, 15 days after the ship date.

Delivery Status

Provides timely and accurate status information about your inbound, outbound and third-party-payer shipments. It even provides shipment-status information prior to pickup by FedEx. You will also see, as part of the status, the location of the shipment: state and country for a U.S. shipment, and country for an international shipment.

Proactive Notification

Automatically notifies you by e-mail, Internet or wireless device of critical shipping events — such as clearance delays, delivery attempts, consolidated proof of delivery and delivery exceptions — so you can take appropriate action.

Problem Resolution

Helps pinpoint shipment and delivery exceptions, such as incomplete paperwork and incorrect addresses, then suggests recommended actions to speed delivery.

Availability of Shipment Information on FedEx InSight

Shipments are displayed in FedEx InSight from the time FedEx picks up the shipment until 4 days after delivery. If there is no delivery, shipments are displayed for 15 days from the ship date. International shipments become available when they are manifested for clearance. U.S. and Canada domestic shipments that are captured are available when FedEx scans the receipt of the shipment.

Customizable Options

The My Options screen enables you to link to and customize various features on FedEx InSight, including:

- **Notifications.** Receive proactive notifications about critical shipment events via e-mail or wireless device. Select as many notifications and recipients as you wish.
- **Invitations.** Invite an unlimited number of people to view your shipment information. You can withdraw an invitation at any time if needed.
- **Shipments.** Add, delete and edit accounts and addresses in your profile for precise shipment visibility. There is no limit to the number of accounts and addresses you can include.

A Summary Table

Gives you top-line consolidated information about all your shipments and shows you how many clearance delays and attempted deliveries, if any, are currently affecting your shipments.
